Kevin White Projected to Win Republican Primary for Franklin County Sheriff

Louisburg, NC – It's primary election day in North Carolina, and Victory Insights is pleased to announce the results of a poll studying the Republican Primary for Franklin County Sheriff. After simulating the election 10,000 times, we have determined that Mr. White has a 99.7% chance of victory. Fellow Republican candidates Bruce Baker and Larry McKeithan have a combined 0.3% chance of victory.

Mr. White is projected to win with a majority of votes, far exceeding the 30% threshold required to avoid a runoff in North Carolina. He is also expected to win a plurality of votes in both the absentee/early voting stage and the Election Day stage. As for Mr. Baker and Mr. McKeithan, we cannot confidently conclude which candidate will finish in second place due to the small sample size of our poll. Regardless, we fully expect Mr. White to defeat both of his opponents by a significant margin.

Victory Insights is one of the nation's premier political analysis firms. Their polls have been featured on outlets including Fox News, the New York Times, The Hill, and Forbes. They are a trusted resource for political analysis across the United States.
